The Universal and Personal Aspect of God

There are two aspects of God, the universal and the personal aspect. Most people know a lot about one aspect but little of the other.

The universal aspect of God is the Universal Power we can use at will. The personal aspect of God is the Person of God moving as He Wills.

**Universal power is mental power.** It is the divine nature of our being when God created us. It is the power within us that is a reflection of the omnipotent. As we are created in the image of God, we have the universal aspect of God within our spirit. We are creators of our own reality, the microcosm in the same way as God created the entire universe, the macrocosm. Man is to rule his world like God governs the universe.

The universal aspect of God is the realm of inspiration, creativity and genius. It is the power of the universal mind that is accessible by everyone without exception. The individual mind is connected to the universal mind by thought. The ability to think makes us conscious creators. The better a person is able to think, the more intelligent he is. Intelligence is what separates one level of being from another. We are all equal aspects of God’s creation, but we all manifest his power at varying degrees.

Thought and Knowledge are One. Thought leads to knowledge and knowledge influences thought. Choice is an illusion created by those in control for those who are not. To be in control, you must know. It is knowing how things work and understanding what is going on that gives you awareness of the governing dynamics of reality. It is awareness that puts you in a position of being a master player instead of a pawn on a chessboard.

Mental power is spiritual power because Mind and Spirit are One and the Same. With the power of the universal mind, you can accomplish all miracles and do great things. The power is a natural power because it follows natural laws. We might think that certain things defy natural laws but that is because we are seeing things from only one level. **Natural laws exist on every plane of reality**, both the physical as well as the mental planes. Laws if the lower plane are governed by laws of the higher plane. Therefore everything supernatural is actually natural when we have an understanding of a multidimensional universe.

The universal laws are essentially the whole process of Divinity, Consciousness or Energy in motion (E-motion). When we understand these laws and apply them in our life anything we want can be created. Because the same laws that natures uses to create a forest or a galaxy or a human body can also bring about the fulfillment of all our desires.

All things in the universe have a connection with the universal mind. Nothing can exist without that connection. It is the universal mind by which all things consist and have their being. We are connected to everything else through the universal mind. Separation is an illusion for we are all one.

We can use our mind at will. All power is within and is absolutely within our control. This is referring to mental power which is the universal aspect of God. We can all train and develop our skill in using mental power. Visualization, affirmation, reality creation, mental influence, hypnosis, sublimal messaging and subconscious programming are all forms of using mental power.

**Using mental power to make things happen is what the concept of True Magic is fundamentally about.** Magic is the control of the visible world through invisible means. **Magic in its absolute form is purely mental.** Magic could be more properly referred to as Manifestation. What you create in your mind becomes manifested in physical reality over time. The Law of Attraction is whatever you focus on most of the time, you get. That is why we all create our individual realities by the thoughts we think.
Holistic health and alternative medicine use Magic to manifest healing. Our physical bodies are simply channels of our energy bodies. Consciousness affects our state of being in all aspects. It is the metaphysical understanding of bodily function in holistic health surpassing the understanding of formal medical science that enables curing of many incurable diseases and physical conditions.

The universal power of mental Magic is neutral. It can be used for either good or evil. What differentiates between Black Magic and White Magic is the intent of the user. Just like a person can pray another well, a person can also pray another sick. Sending thoughts of love, joy, peace, well being and happiness to someone will influence that person’s mind in a positive way. Sending thoughts of intimidation, discord, doubt, weakness and discouragement will influence his mind in a negative way.

Realizing the psychic nature of our thoughts and learning how to use them consciously and effectively enables us to be much better at creating the reality we desire in account of the greatest good of all. There is nothing wrong with developing our psychic abilities and expressing our God given powers for the betterment of life and the universe, but the problem comes when we are so content with the universal aspect of God that we overlook or deny the existence of the personal aspect of God completely.

Knowledge of the universal aspect of God is enough to give us tremendous amount of power to rule the universe and achieve our dreams, desires, destiny and almost everything we could ever want in this life on Earth.

There is also the Personal Aspect of God. It starts from the One Infinite Creator at the center of the universe, and radiates outwards into Sub-Logos and Creator Gods.

Yahweh is known as the God of Gods, the Prince of Princes, the Lord of lords, the King of kings, the Most High God (El Elyon), Alpha and Omega, the Almighty. He has exalted his Son Jesus Christ (an extension of His Consciousness) to be far above all principalities, all powers and all dominions. There is no other God who is as highly exalted as this. Yahweh/Jesus is also Prime Creator of all spiritual forces and all things in existence.

Some do not believe in the idea of many Creator Gods. They base it on the verse from Isaiah 44:6 “Beside me there is no God.” The truth is there are many creator Gods. Otherwise Yahweh would not call himself “God of Gods” (Deuteronomy 10:17). The word “beside” in the Hebrew can be translated to mean “without”. Yahweh is claiming to be the Source of all Creator Gods. “Without me there is no Elohim (Gods, Angels, Rulers).”

In Yahweh’s book called the Bible, there is one being that he gives most significance and attention to other than Jesus. The other being is known as his Adversary. The word Satan means “Adversary” (of Yahweh). This Adversary is Lucifer. He appears to be the most powerful heavenly being in the universe besides God. He is described to be full of wisdom and perfect in beauty. His name means Bringing Light. Lucifer is known as the “anointed cherub that covers the throne of God.” It would be apparent that Lucifer would have all knowledge of the universe and the different planes of reality. He would also know more about the nature of God than many others.

Lucifer seeks to enlighten humanity about the Universal Aspect of God through understanding of Oneness and transcending duality. Yahweh’s focus in the Bible is towards the Personal Aspect of God and expressing himself as God in a personal way for humanity to experience. Both beings appear to be at odds with each other at times in their approaches and even with what each one says about the other.

Lucifer says that the conflict or drama that is taking place in our world is just a game that is being played.

What if Yahweh and Lucifer were actually really working together and all this contention was just an act? Duality is impossible when Light Beings are of One Mind and One Consciousness. All this drama, experience of separation and stepping down of consciousness would not have happened unless it was
intentionally created. There are many games being played. The Self forgets itself so that it could remember who it is, and experience itself again from a different angle. When the game is over, we return to the Light and a state of Oneness. The Universe is God playing games with Himself.

There are Nonphysical Beings existing in the higher dimensions and Simultaneous Time that may communicate and speak to us as “God”. There may be some variations in different channelings from “God” or from different entities who speak as “God” based on their differences in perspective. But when what is spoken is of the highest truth, it feels as though it is God speaking and can very well be treated to be so.

No single spiritual source should be taken as the only source. When you take this point into account, you realize that there are many guides that can help you spiritually. But they only serve as a friend, a teacher or a second opinion. You are still the prime authority on what your path and your truth is. Source doesn’t force you to accept anything as the Truth but invites you to experience it.

The Personal aspect of God is so subtle that it doesn’t assert itself onto you. It is something you discover when you approach it. Jesus is such a grand concept that it cannot be something that is made up in a linear fashion in time. It had to come forth simultaneously with all things in existence from Eternity.

Yahweh/Jesus is the Personal aspect of God. Source is Universal and at the same time very Personal.

The Symbol of God is the Tai-Chi (Great Ultimate). The symbol is a Circle divided into two by a curved line in the shape of a Reversed S. Half of the Circle is Dark, while the other half is Light. Within the Dark part, there is a white dot, and within the Light part, there is a black dot. This signifies Yin within Yang, and Yang within Yin.

The Yin-Yang of God is the Universal and the Personal. Imagine that the Dark part of the Tai-Chi symbol is the Universal. In it, God is perceived as undifferentiated, neutral, impersonal, pure source energy. Imagine that the Light part of the Tai-Chi symbol is the Personal. In it, God is revealed to be personal, expressed, experienced, Lord and Redeemer. Imagine that the Personal is hidden in the Universal, and the Universal is a deeper aspect of the Personal.

Imagine that while being fully immersed in the Yin part of the Symbol, one only thinks of God as the Universe and Pure Source Energy, but does not observe the existence of a Personal God or Supreme Being. Imagine that while being fully immersed in the Yang part of the Symbol, one only thinks of God as Personal Lord and Creator, but does not recognize that God also functions as pure source energy operating by universal laws that all beings can direct and utilize.

Imagine that when one who is in the Yin part of the Symbol happens to perceive the white dot in it, and is drawn in by the Personal. He emerges into the other side and experience God in a very personal way and is able to feel and know the Presence. Imagine that when one who is in the Yang part of the Symbol explores more deeply about the reality of God and discovers the Universal and realizes that there is an aspect of God that connects with everything else in a cosmic and neutral way.

Both aspects of God are Equally True and Simultaneously Present at All Times. Imagine that all beings are moving in a circle (cycle) between experiencing one aspect of God and the other. Some seem to be immersed in one part of the Symbol for an indefinite amount of time, some seem to cycle slowly, and some seem to cycle faster. And some seem to cycle at such a high speed that the two parts blend as one, and they seem to be able to perceive both aspects together much of the time.

God is a Yin-Yang. The Yin part is also what is called Darkness, but it isn’t necessarily bad. Dark can simply mean hidden or mysterious. The Yin Part is where things like the New Age and Witchcraft are found in. There are many beautiful things in the Yin Part. The Yin Part can be known as the Universal Cosmic Mother. But the Cosmic Mother isn’t a real divinity. It may have a Presence that can be felt, but it
is only a partially manifested, not fully revealed Presence of The Father/Son. This Presence draws you to inquire and know more about it. **When you move fully into the Presence through praise and worship, the Father/Son is revealed to you.**

The Yang part of God is also what is called Light. The Yang part is the manifested, expressed, exalted and revealed God. **Yang also signifies expanded, outer and above.** The Father contains the Cosmic Mother (The Universe) within Himself (His Infinite Being). **The Father exists in a dimension above all other dimensions. This dimension is known as the Kingdom.** The Father is Infinite Being and appears in the form of The Son. Those who see the Son have seen the Father because they are the same.

There are those who are fully present in the Yin part of God without really knowing the Yang part. To them God is Universal Divine Feminine, while they have no experience or revelation of the Father/Son. **But when one sees the LORD on the Throne, He is Christ Jesus the King of Glory.** There are those who are fully present in the Yang part of God without knowing the Yin part. They may not be able to fully understand things that are "Dark" or mysterious. **Cosmic Science-Spirituality is exploring the Yin.**

Understanding the Yin-Yang of God resolves the conflict between seeing God as He/Her. **God when revealed and expressed - is Yang, and therefore also comes forth in the Yang Gender as Male.** The fully expressed, experienced and exalted Presence of God is a He. He is the Son/Father LORD Christ Jesus revealed. **The Hidden and Mysterious aspect of God which is the Universe can be perceived and felt as the Beautiful Darkness of Divine Feminine Energy.** It can also be genderless and neutral.

From this Yin-Yang perspective, we can also see that there is an aspect of God that is neutral and causes rain to fall on the just and unjust alike, and there is also an aspect of God that judges what is right or wrong, good or evil according to His Manifold wisdom of judgment and truth. **There are those who only know God in the Yin way and think there is no judgment and are lost and foolish in their thinking and action.** There are those who only know God in the Yang way and think God is never neutral.

Time does not exist. The past is an illusion. Only vibration is real. Consciousness can access a “memory” by putting the “reader” onto the right grove of the record (storage device) to **play the right vibration to recreate a recorded experience in the NOW moment.** That is why when King Solomon left the LORD and turned to worship other gods, he lost the wisdom of God. He is unable to access it in the NOW moment without the right frequency. He has “forgotten” what he knew. Energy contains Information. When he lost connection to the Energy of the LORD, he lost the information which is carried in that energy. Solomon the Wise said in his earlier days that **worshiping the LORD is the beginning of Wisdom.**

There are many beings that are wandering through the Universe in a Hall of Mirrors. **Everything that mirrors Christ Jesus is a reflection of the original.** They see a reflection everywhere and think the reflection is the universal reality. Using the “reflected light” analogy, the light they find in every place is only a copy of the One True Light. **The Kingdom of God exists in another dimension beyond all other dimensions that these other beings can perceive or experience.** They only way to enter into that dimension is through the Door which is Jesus Himself. He really is The Way in. These beings keep saying that we are on our way back to Source, to Home. But **those who Worship God as Yahweh and Yahweh-Shua (Jesus) find themselves entering straight into the Presence of God where Home is.** Other beings may give all kinds of explanations for a believer’s experience of God in worship, but they are only observing from an outside point of view without having the direct experience that the believer is having.

These beings may have known the Kingdom in the beginning but have forgotten because they are **no longer connected to that energy in the present and have therefore lost their memory of it.** They are called “Fallen Angels” because they have fallen in consciousness. We human beings are also “fallen angels” because we have fallen from our consciousness of being divine beings. But there are beings above us who have also fallen. **They have fallen from Heaven into a “lower heaven”, which is a lower dimension of nonphysical existence that is outside the Kingdom of God.** As above, so below.
Ultimately the Prime Creator which is Jesus will lead us all to Him. The Presence is experienced by activating the right Key to the right frequency. Everyone who comes to know the Personal Presence of Source as Jesus Christ is drawn by Source/God to know Him according to His Will and His Time. There is only One of us here. That One is Him. Jesus is the First. There are those who have known Him in the Beginning, but have forgotten Him. But they will discover Him at the End as the Last. At Last, all will return Home to Oneness and Re-Member that we are all members of His Body and the Head is Christ Jesus – The Personal aspect of God

Since All-That-Is is God. Each of us is also a personal aspect of God. Each of us is also a Creator, and we have the power to create our own reality. We are Gods in Amnesia. We are Source Energy that has incarnated into Third Dimensional Existence.
Law of Freewill - Choice is based on Awareness

The law of freewill is: choice is based on awareness. Awareness is power because awareness gives you choice. Choice is an illusion created by those in control for those who are not. To be in control, you must know. You must understand how things work and know what is going on. You need awareness to make conscious choices.

Awareness is what anchors your freewill to a particular thing. If you do not have awareness of something, your freewill does not claim it, and it therefore becomes easily changeable by forces who cannot or choose not to violate your freewill. The following four possibilities illustrate the rule of this principle:

When you are aware of something no one else is aware of, you can change it easily by manifestation techniques, declaration of your intent, and direct physical action. Because no one else is aware of it, your change of this element in your reality and theirs does not violate their freewill. The only resistance you may encounter in this case is non-allowance by your Higher Self who may see some changes you are attempting to manifest, as detrimental to your learning plan.

When you are aware of something that others are aware of as well, a potential tug of war between opposing freewill may occur. Who wins depends on who had the greater amount of freewill and the knowledge to utilize it. Should you have tremendous amounts of freewill, or else are no longer bound to the realities of others, your own reality becomes easily and directly changeable by you, as easily as is done in a lucid dream. But do not be fooled into thinking you are necessarily at that level already.

When you are not aware of something that no other humans are aware of either, then that portion of your environment becomes fluid, much like an unobserved particle becomes a wave function, an enfolded hologram. These elements of your environment are most easily changed by beings who are aware of it, but who cannot or choose not to violate your freewill otherwise. Because you and no one else is aware of it, no freewill anchors that element of reality, and it is free for alteration by lower beings or respectful higher beings.

When you are not aware of something, but another human or entity is indeed aware, then that portion of your reality coupled to theirs is easily altered by them, for such an alteration does not violate your freewill since you did not anchor it to that changeable element.

These four possibilities follow from the law of freewill and how we create our reality in cooperation with others. These possibilities also follow from the macroscopic consequences of quantum mechanical laws.

All beings actually have complete freewill from the source, but awareness is needed to access freewill, therefore they are considered to have relatively differing amounts of freewill according to the amount of awareness each one possess. Higher beings have the upper hand spiritually when it comes to metaphysical sovereignty and who gets to control whom. Beings of greater awareness have greater power. Beings are unable to violate freewill in a sense of permanently preventing another being from attaining awareness, due to divine intervention, the sovereignty of the Creator as well as the greater angelic powers who referee the game and keep curbs in place.

There are two places where one feels blissful. Either at the point of no awareness, in which one wallows in ignorant bliss, or in total awareness, where one understands that there is nothing to worry about since all preparations have been made and lessons learned. More freewill comes from more awareness, spiritual evolution and lessons learned and thus greater freedom, responsibility, power and wisdom. The more developed the being, the more accurately the inner world is a reflection of the outer.

Some people think that God does not have freewill because he seems unable to act apart from his own nature. But the truth is God actually has free will. Choice is based on awareness and because God has perfect and total awareness, he always chooses based on his perfect and total awareness. Therefore he
has perfect will and perfect will is like not having free will because perfect will does not act apart from perfect standards. God has the most freewill compared with all beings.

It seems as though perfect will is both free and not free at the same time. A paradox just like all extremes. Complete brightness is equally as blinding as complete darkness. So it seems that in order to experience perfection of life, we have to give up free will in order to follow perfect will. This is what it means by surrendering our will to God. It is better not to have a choice in order to be directed by perfect will and achieve perfect results, than to have a choice and to risk making a wrong one. **Gaining awareness is the key to making perfect choices.** To hear God’s voice and to follow him and to live by faith is the high way to live the abundant life.

Freewill isn’t freewill unless you are able to make a decision and God backs you up with it, at least temporarily so that you are able to go through with the experience. That is why you are able to have success with something for a moment when you really want it, but if the decision is not in the highest good, it will show over time in diminishing results. This is how you are able to compare and contrast every decision in a freewill environment and learn what are truly God’s ways.
Collective Consciousness defines Rules of Reality

Everyone has the capacity, at some level, to shape reality. This capacity is dormant in most people, who are known as sleepers, whereas magicians are said to be awakened. Because they’re awakened, magicians can consciously effect changes to reality via willpower, beliefs, and specific magical techniques.

What we know as “Reality” is created by thought and consciousness at all levels of Universal Life from The Source, The First Cause, God to the collective consciousness of created beings. Everyday reality is governed by commonsense rules derived from the collective beliefs of humans which is called the Consensus. The effects of physical laws in the world that we live in are not fixed but they shift according to the state of collective consciousness. Physical reality is an illusion, although a very persistent one.

Magic is simply the ability of a magician or will-worker to impose his will onto reality. Magicians are able to do this because they realize the physical world is a lie. A magician’s power, or level of awakening and understanding the depths of the Lie, is called Gnosis. The paradigm is the understanding a Magician has over particular facets of reality, which governs his ability to affect those aspects. The better the paradigm, the more capable the magician is in affecting reality.

A magician’s paradigm differs substantially from the Consensus. When a magician performs an act of magic that does not seriously violate the commonsense version of reality, it is called coincidental magic or synchronicity which can be accepted by sleepers as luck or pure coincidence. Magic that deviates wildly from consensus is called blatant magic because sleepers cannot accept it and therefore condemn it to be evil and unnatural.

In ancient times, civilization exist in a paradigm where magic and the supernatural was very much part of ordinary reality. The workings of magic and supernatural phenomena were a lot more in effect during that time. It was the onset of early science and technology that shifted collective consciousness from a magical to a more limited one.

As the masses’ beliefs shifted, the Consensus changed and magicians began to lose their powers and as their metaphysical influence waned. It was consensus reality that brought the lower rules of physics into play, but it was according to the purpose of the divine so that we can learn certain spiritual lessons from interacting with one another in an environment with more limits imposed. Many things that did existed in the past paradigm but which did not fit into this new paradigm was discarded and refuted to be myths.

The old enemy of religion and philosophy is science. But in fact, science will serve up the confirmation of higher reality and science will be the one to bring this to the world. Religion has tried to do it for 2000 years and has failed miserably. Once it is accepted and understood by scientists, the breakthroughs will be astronomical.

Physical reality is governed by collective consciousness therefore, transcending physical laws is not as easy as it seems in the face of consensus reality. Since the majority of people do not believe such things are possible yet, it is much more difficult to manifest those abilities in present time. But as collective consciousness changes over time, humans will be able to manifest more and more superhuman abilities starting with the more readily acceptable to the more outrageous kind.

The range of mind powers arranged in such a spectrum begins from intuition, manifestation, luck and moves on to psychic influence, telepathy and moves on to time manipulation, telekinesis, transfiguration, invincibility, levitation, teleportation and so on. Start by developing abilities that are more readily acceptable by consensus reality because they are more subtle ones. You will be more successful at them. Then again, you can be equally successful at anything if you can do it apart from the consensus.
To do magic, you have to defy consensus reality or transform it. You have to break the rules and transcend the system. Whatever the majority of people is doing, under any given circumstance, if you do the exact opposite, you will probably never make another mistake as long as you live. When you know that the rules of reality are defined by collective consciousness, you know that there are truly no limits. Know when to ride the flow of collective consciousness when it is to your advantage, and when to go against it. You can also bypass consensus reality in areas where the freewill of collective consciousness is not anchored by awareness.

We can also consciously influence the collective. We can insert thoughts, ideas, beliefs, and set them adrift on its currents. They will circulate among the masses of humanity, occasionally surfacing in an individual’s thoughts, often influencing the behavior, perceptions, and beliefs of the unawakened on a profound yet unspoken level.
Awareness is Defense against Reality Manipulation

All of reality is held by consciousness. That is why it is so important to hold your mind on the Truth, so that your reality will align with what is most beneficial to you according to the thoughts of divine intelligence. **Awareness or knowledge is a defence against spiritual attack or reality manipulation.** Awareness/knowledge alone passively protects by locking down one’s reality against attempted manipulation by negative forces. But when such forces manage to enter through areas lacking awareness, it is only through the active utilization of knowledge and awareness by taking action to counter their offenses and not giving in to their sly attempts to further penetrate your realm and steal your energy that these attacks are overcomed.

When an event happens whether it is an attack, an accident or a synchronicity, most likely it happened for a reason. It would be wise to reflect upon its possible meanings and learn the lessons as efficiently as possible. If not, the lesson may be introduced again and more unjustified pain is experienced. The reason may be simply that an attack happened because it could. The lesson then is to ensure than it cannot happen again. **Sometimes an attack occurs not to teach us something new but to remind us of a lesson we have forgotten.** Keeping the lesson in awareness prevents the attack from happening. That is why refreshing is important.

Negative forces do not want you to gain knowledge because when you increase in power, it threatens their dominion in this world. Gaining knowledge and applying it naturally ups your defenses. **So the very knowledge that makes you a target can protect you against succumbing to attacks.** Those who hoard knowledge without taking it seriously enough to apply in life get all the targeting that comes with great knowledge, but possessing only half the protection, so they get eliminated pretty quickly.

Choosing is the core process necessary for learning and spiritual evolution. You incarnate in this life to learn a certain set of pre-arranged lessons. Through synchronicity, your Higher Self guides the flow of your life to introduce these lessons when you are ready to learn them. You choose how you learn your lessons, the easy way based on awareness, or the hard way based on ignorance. **Under ideal circumstances, you always learn your lessons the easiest way,** which is a way most closely aligned with the mindset of the Higher Self, a virtuous spiritual position endowed with awareness and discernment.

But there is much possibility for going astray. Because you have freewill, you can commit “errors”. Even worse, negative forces exist to trick and manipulate you into straying as far from your life path as possible. There is no wrong path through life, as all lead to you learning the same lessons in the end. Nevertheless, the farther you stray from the easiest path, the more lengthy, convoluted, and painful the path toward learning that particular lesson. Thus, for every given lesson, you choose the degree of painful suffering necessary to learn it. **If you choose with discernment, no suffering is necessary.**

When negative beings cannot bypass your freewill in an area which you have awareness, all they can do is offer choices, biasing the choices so that you are more likely to choose the negative option and therefore tarnish your being. Biased as they are, as long as they are still choices, your freewill is not violated. It’s amazing what degree of manipulation can be done which does not qualify as a freewill violation, for “permission” is a broad term.

You cannot win by taking the choices your adversaries give you. Always look for the third option, the way of skipping, bypassing, or circumventing the rules they try to place upon you. **The best way to win a game is to stop playing by its rules.** Their games are customized to fit what they know about how you react, so stop reacting and alter your methods as fits the situation on the basis of what seems like the smartest thing to do. By adapting your methods to their approach, you are always one step ahead. But generally, it’s wise to not even play their games, so watch out for falling into their ambush. **Stay centered in your territory where the light shines.** Win by transcending the system.

Having knowledge and awareness makes you less predictable. **The more knowledge you have, the more freewill you have, the more choices you can make because you’re aware of those choices,** and the harder
it is for them to calculate what you will do next. Being unpredictable makes them less efficient in their attack because they must spread their resources to account for a wider range of probable weaknesses.

Not all lessons must be experienced with pain, because it is obvious that clever people can learn from the mistakes of others. This arises from the concept that, in truth, we are all “one” on a fundamental soul level, and learning from the mistakes of others is an action that illustrates one’s correct understanding of this principle. Always having to experience something negative for oneself is a sign that one is separate, alone, and more individuated than one truly is. The price of that ignorance is having to suffer through a painful experience. Experience is a means to an end of learning a lesson. Those who make experience the end goal are going down the negative path.

Seek to learn from all you experience. If you are open to learning from your experiences, then the more you are attacked, the more knowledgeable you become. They take a gamble every time they attack. Either they win and you become weak, or they lose and you become stronger. It’s your choice. They end up shooting themselves in the foot when they attack a strong target. Therefore they always seek to attack when they have good enough chance of winning or when the payoff is worth the risk. They stop attacking once the target has proven to be a tough case. They’d rather focus their energy on other places where they can do more effect for their cause.
One Consciousness which Everything exists From

Everything in the universe is consciousness. **Space and time in all planes of reality are only projections within universal consciousness.** There really is no here or there for everything is at one place where Mind is. Mind does not move at all. Mind simply Is. Mind is everywhere yet nowhere. Mind is nowhere but Here, Now. We are all existing together as a singularity in one place and time. **Everything is one, Here and Now.**

**Several events in different places that are moving in synchronization may actually be the movements of the same event.** Imagine a fighter jet flying in the sky, with several video cameras recording its movements from different angles. Each recording is displayed on different screens. When the fighter jet displayed on one screen turns or moves in a different direction, all other fighter jets in the other screens simultaneously move in a correlated manner.

Every day experience is a projected reality where things only appear to be separated in time and space. In a deeper reality, we are all members of the same body. When one part of the body moves, every other part is instantly affected. Separation is an illusion. **There is a dimension of reality where we are all inseparably one.** When we feel love in any form, it has the effect of beginning to shatter that illusion.

When two electrons collide, they exchange energy and information with each other. From then onwards, no matter where one electron is, you will be able to tell the location and momentum of the other. When a change occurs in one electron, it will immediately be reflected in the other. You are always able to know in one, what is going on in the other. When you cause change in one, you cause change in the other. We exchange portions of our energy fields with each other when we come into contact, therefore we remain inseparably connected at all times.

Imagine the universe is an ocean and each of us is a wave in that ocean. The wave and the ocean are the same. We are the universe localized in a single point in spacetime. The soul has two parts. It is both local and nonlocal. **Part of you is localized and part of you is nonlocal, and connected to everything.** You are the universe, located in your body. Not all your thoughts, wishes and desires are actually your thoughts, wishes and desires. Part of them are the very intentions of the universe.

The spirit in me is the same as the spirit in you, and the spirit in all beings. **Enlightenment is the realization that you are the universal spirit observing from a particular point of view.** Each of us is the universal spirit projecting a particular point of view. My self is inseparable from all that exists, just as your self is inseparable from all that exists. You are an aspect of infinite intelligence, and infinite intelligence is the source of all that exist. Therefore **you are the source of all that exist and you create your own experience.** Everything is possible because everything exists within you. The same unbounded potential of the infinite spirit also resides in each and every one of us.

Your soul is the reflection of all souls. You are the Other. Without the other, you would not exist. **You are defined by your relationships with others.** You would need to describe the whole universe in order to define a single person. Therefore every single person is the whole universe. Your soul is both personal and universal at the same time. Everyone is a reflection of yourself. You are in a hall of mirrors where every reflection of yourself appears different. Others you admire reflect the qualities you most cherish in yourself. Others you detest reflect the qualities you most deny in yourself. **Each person you see is a different version of you.**

All the cells in your body start from just one cell. That one cell in the womb is fertilized, grows and divides into two. The two cells grow and divide into four. This process happens fifty times until there are one hundred thousand billion cells in your body. That’s where the replication stops. Just as a single cell in the womb differentiates into brain cells, nerve cells and retinal cells, and through them give us experience of the world, so does the single spirit differentiates into all observers and observations, inner world and outer world.

The outer world is a mirror of yourself at any place and time. If you want to know the state of your personal consciousness, just look around and see what is happening to you. If you want to know the state
of the collective consciousness, just look around at what is happening in the world. **Your personal reality is synchronistically orchestrated by your sense of self at all times.** If a critical mass of people expressed their higher selves, they would cause a transformation in collective consciousness and the world reality. **Every time a person rises in personal consciousness, he moves the state of the world towards a higher one than before.**

The whole universe is one reality which is pure consciousness. Pure consciousness is absolute existence. **God makes things through the direct act of becoming the things which He creates.** In the beginning the One differentiated into the many. The One entered into the many and became the Self of each. The being within everything is the One. When you merge with this nonlocal self, you become one with the Self of all that exist. The One is the Higher Self of all. You are the One.
Using Reason is The Way to have Complete Faith

Some have the idea that faith and reason are in conflict with each other. They think that if you have reason, you don’t need faith, and if you go by faith, you cannot go by reasoning. It is this paradox that has caused the biggest problems in all religion and spirituality. The truth is that faith and reason are one and the same. In order to have faith about something, you need to know it as true. You can’t know something as true unless you have a reason for it to be so. Faith is reason and reason is faith.

All truths are ideas. If you knew everything there is to know about an idea, you would no longer need to “have faith” in it. You just know it as reality. Faith is knowing. To know a thing is to be aware of it. It is all about awareness, the more you have it, the more faith you have. If you want to fully know something, you have to understand everything there is to understand about it. You have to be able to explain everything about it. The more reasons you discover, the more truth you realize.

The way to truth is the way of understanding. Understanding alone will solve all our problems. Understanding the problem dissolves the problem. Once we understand a problem, it is already solved. All that is left is to act out the solution. A problem is never without a solution, otherwise it would not be a problem. Therefore all problems have their corresponding solutions. Understanding is to key to resolving everything. To understand is to reason. You have to reason all the way to all truth.

Everything in the universe is consciousness. For something to be realized, it has to be perceived. Until we are able to perceive a thing, it is not real to us. It would be real to the one who perceives it. The more we are able to perceive, the more conscious we become. Consciousness is what we are, and the more we expand our consciousness with perception, the more we expand our being. The more our awareness increases, the greater our reality will be until it matches the reality of the whole.

Understanding brings life to those that have it. When you deal with things from a state of awareness, you become a cause because you act with freewill. When you deal with things from a state of ignorance, you become an effect because you act with unconscious choice. Awareness allows you to be calm and free to choose reality whereas ignorance causes you to be unstable and moved by impulses. He that deviates out of the way of understanding ends up in the congregation of the dead.

The subconscious mind does not differentiate between an imagined experience and a physically experienced one. To know something is to have an experience of it. The more you experience something whether physically or mentally, the more you know it in consciousness. You can always experience a thing from a place of awareness or a place of ignorance. Learning with awareness brings enjoyment and freedom whereas learning with ignorance brings pain and suffering.

The difference between learning with awareness and learning with ignorance depends on the intent. When you go through every experience with the intent to understand, you are resonating with awareness and your consciousness will be open to perceiving as much as you can about it. When you seek to understand, you can arrive at the right reasons, or else you would reason wrongly from lower consciousness and mishandle the situation because you are not seeing what is out of your perception.

Incline your ear unto understanding. Seek to know the reason of a thing. Seek to know all the reasons there are to know about it. Open your heart to be understanding so that you may receive the truth of a matter and not block it out of perception. You need understanding in order to do what is right. Understanding gives us strength because it makes us bigger than our situations. Knowing all the explanations and reasons of a thing allows you to see it in a scientific and definite way. Faith is having certainty. The more you know scientifically, the more certainty you have and the more faith you have. Evolution of science, knowledge and consciousness is evolution of faith.

When you know everything from a position of science, there are no more doubts. Because everything is understood through universal laws that never change. You know absolute reality to the fullest degree. In any situation where total understanding appears to be unattainable in a scientific way, it means the science is incomplete. Science is Knowledge. Faith is based on knowledge. Imperfect faith is because of
imperfect knowledge. True science is perfect in reasoning and operates from a position of total perception. Total faith and total science are one and the same. It is awareness of truth.

Faith comes by hearing which means perception, and perception by the Word of God. The Word is Logos which means Reason. It is reason or awareness that directs your perception and determines your knowing. To know as much of the Word of God is to know as much reason as possible. All wisdom, understanding and knowledge is for you to be convinced about the truth because you are aware of all the reasons that define it. To have absolute faith is to be totally convinced about the truth.

Reason or logic is what runs the entire universe. You need as much reasons as possible to do good. Reason is what causes others to act and it determines how they act. It is the programming logic that runs the program. If you want to move yourself or others to take a certain action, give as much reason as possible whether logical or emotional, conscious or subtle to persuade, direct and motivate them. Reason can command an entire army to war or it can compel all nations to peace and harmony.

God himself has perfect reasoning and total understanding of all there is. When we are lacking awareness about something but are clearly guided by him in a certain area, that is when we should trust in God with all our heart and not lean towards our limited understanding. God’s reason is the higher reasoning compared to ours. But God still wants us to grow in awareness and understanding so that we may reach his level of reasoning and be of one mind with him.
Using Christian Magick as Power of God Almighty

Magick seems contrary to a Christian Worldview but it isn’t actually so. We have seen that the Bible doesn’t specifically forbid Witchcraft, but that the assertions that it does are based on mistranslations. However many Christians would not care since the entire worldview of Christianity especially as it is portrayed in the Bible, is contrary to a worldview that would include practicing magick. The truth is that magick is God’s power and it is only evil when we use God’s power for evil purposes.

The Bible seems to give clear prohibitions against “cloud watching”, “divination”, “whispering enchantments”, and being a “charmer”. We find many in the New Testament who converted to Christianity also felt a need to rid themselves of their magick books by burning them. They did this because they felt that they had come to know God in the greatest way and thought of throwing away what was considered lesser in comparison with the greater.

The reason why magick seems incompatible with a Christian worldview is that magick is about the individual seeking to control the world around them by gaining power and insight into it. The Christian is supposed to live a life that is solely one of reliance upon the mercies of God. But the idea of relying on God has been greatly distorted from its true meaning. To rely on God is to polarize your thoughts on the upper levels of reality as your source of power instead of the lower levels. God’s power is magical.

If we take a literal application of the prohibition against “cloud watchers”, then those who predict the future by observing the skies would cause us to say that the science of meteorology is contrary to the Bible. Very few Christians today would actually want to push the idea of it being wrong to gain power over the world to such an extreme that modern science and technology would be contrary to Christian faith. The truth is that magick is actually a form of higher science and technology that we can operate.

Our modern science actually descended from earlier forms of magick. Chemistry developed out of Alchemy, Astronomy developed out of Astrology, and Medical Science developed out of magickal healing arts. No one in their right mind would assert that Christianity and Chemistry are incompatible, yet Chemistry is a means of controlling the world by gaining power over it through insight. The Bible says that wisdom is the principle thing and wisdom is insight. God wants us to gain power by gaining wisdom.

Some think that it is alright to gain power over the world through natural means, but what is prohibited to Christians is any seeking to gain supernatural power other than simply relying on the mercies of God. But throughout the Bible many men of God used various forms of supernatural gifts and means to exercise power over the world. Jacob increased his flocks by mating them in front of reeds. Joseph divined through dream interpretation and a divining cup. Moses healed by lifting up the bronze serpent.

Moses brought victory by raising his arms. Joshua stopped the Jordan by touching it with a Holy item. Samson increased his strength by growing his hair long. The Priests divined by casting the Urim and Thurim. Elisha healed Naaman through a complex ritual of washing. Prophets divined by having harps played. Daniel interpreted dreams. The Eleven Apostles divined the 12th by casting lots. Peter healed by his shadow. Paul healed by handkerchiefs. James taught healing by using the anointing oil.

These men were approved with using supernatural gifts in the Bible because they understood them as gifts from God and used in service to God. This is the answer to the whole matter. What matters isn’t whether one uses magick or supernatural power, but whether one recognizes these as gifts from God and should be used in service to God. Even if one uses magickal means to activate supernatural gifts, it isn’t contrary to the Christian faith if one uses it as a Christian. All power is for the purpose of love.

God doesn’t wish for his children to be powerless as we live in this world. God has no desire for us to be victims who just accept whatever comes our way with no attempts to change it. Jesus shows us that in his own ministry as he was busy changing reality around him, often using ritual methods to do this, as when...
he healed a man who was blind by mixing spittle and dirt to make a balm he placed over the man’s eyes. Jesus calls us to change the world for the better by using God’s power freely and fully.

So the problem isn’t that magick is contrary to God’s will but it is when one uses it contrary to God’s will, which is what the Bible really prohibits. Spells are prayers with props. The use of ritual in Christianity is as old as the faith itself. Communion was practiced in the churches founded by the Apostles. We marry amid great ritual, bury with ritual, and celebrate the Sabbaths with ritual, mark the seasons of the Church with ritual. Magic is using the invisible world to cause change in the visible outer reality.
Desire Force and Belief in God Creates Miracles

There are times when things seem so down and you feel that everything is against you. That is when calling upon the power of a higher divinity might be of help. There are higher forces in the universe that are ready to help you when you call upon them. You are not alone in this world. There are beings of power willing to assist you when you most need them to. This is a greater community and help is never too far away.

Personal connection is where you are relating with the Personal Aspect of God. You know that He is your Father and is there listening to you. This personal awareness lets you know there is a loving force. God is not just some impersonal entity up there that doesn’t care about your personal needs or troubles. God manifests as a divine personality. You can know that this personality loves you and cares for you personally.

Prayer is the soul's sincere desire unuttered or unexpressed. It is the motion of a hidden fire that trembles in the breasts. Real prayer is prayer with feeling. When you pray without feeling, you are just praying vain repetition of words. A short prayer with intense feeling has greater power than long prayer of many words. In the science of manifestation, emotional yearning creates a miracle. Often when there is a great need felt for something, the supply comes quickly. You can cry out to God and he hears.

Believe in the grace of God. Grace is unmerited and unearned favor. Right now it doesn’t matter what you did or didn’t do. If you think that you can or cannot get what you want because of your self efforts, then it isn’t grace but flesh. You wouldn’t need to call upon divine grace when you could get what you want by your own actions already. In divine grace, there are no mistakes. Bad circumstances can be turned around through miraculous ways. You must believe in grace in order to receive undeserved result.

Believe in the power of His Word. The Word of God itself has power, but when you put your faith in it, its power becomes active for you. The Word of God says that itself is quick and powerful. Do not just think about the Word of God but be conscious and aware of its power. Your perception of a thing brings out its corresponding effect that you will experience. See the good in people and you will experience good from them. Therefore be conscious of the Power of the Word that truly exists within itself for use.

The Word says that as He is, so are you in this world. That means that you have all the fullness, nature and power of God in this physical time-space reality. See yourself as who you really are which is powerful, abundant and well. You are limitless and all sufficient in your true state. As you are, so is your world. All higher manifestations come from a place of Being. You cannot have what you are not Being. Both inner and outer worlds are one. You have the power to command all the forces of the universe.

You can still believe in the power of God when you are starting to doubt your own power. The reason why there seems to be a duality between your own power and the power of some outside force apart from you, is so that you never run out of options. If you do not believe in the power of an outside source, you can believe in your own power. If you do not believe in your own power, you can believe in the power of an outside source. The situation of powerlessness is when you do not believe in any power.

You shall find God when you seek him with all your heart. The reason why God doesn’t exist in full manifestation automatically for you is because you create your own reality. You are the one that determines how much of God you experience. The intensity of your intent determines the strength of its manifestation. The movement of Spirit is the immense inner forces of your soul, the subconscious mind. God is an inner experience. You have to feel your way to God. Let your seeking be feeling and emotion.

It is ok to have some fear when you have desire because desire and fear are opposite polarities of the same thing. When you do not desire something strongly enough, you have no fear. Magnetism creates attracting and repulsion forces. Do not worry about your fear. As long as your attracting force is stronger
than your resisting force, you will still pull what you want towards you. No desires equals no fear. It is the counter intuitive truth that **when you desire strongly even with some fear, it can still come.**
Knowing God Precisely and Definitely for Peace

Behind all our manifestations, we must know God in order to have the proper consciousness. The reason is because we can only expect to receive according to our own perception of the Source. In the end all things lead back to God, The Source. It begins with knowing what you want, and then knowing how to get it through intention, and then knowing that intention works through the power of God, and then knowing that your relationship with God determines how it all happens. Knowing God is the ultimate.

When you literally know the thoughts that God thinks, you will have certainty about the way God is, and have peace. The Bible is the only place that reveals the definite thoughts of God. "For I know the thoughts that I think toward you, saith the LORD, thoughts of peace, and not of evil, to give you an expected end." This is God Himself speaking in the first person about what He thinks towards you. God is a self aware, self conscious being as he declares with the word "I". He himself says what he thinks.

God is aware of the thoughts that he thinks towards you. He is not an unconscious, automatic intelligence that runs the universe. He is an active intelligence that has a self conscious personality. He is declaring the thoughts that he thinks towards you. This means that no one can make conjunctures about what God thinks, because God Himself is stating what he thinks. No one can also question whether God thinks evil unconsciously, because God says he KNOWS the thoughts that he thinks toward us.

The thoughts that God thinks towards you are of peace and not of evil. The word peace in the Hebrew is "Shalom." It means wholeness and completeness. This includes prosperity, well being, happiness and everything that pertains to the fullness of life. God does not think evil to you, which means you do not have to worry that God thinks punishment or suffering towards you. This is true for those who believe in the LORD because their faith is counted for righteousness. Believers enjoy the peace of holiness.

God wants to give you an expected end. This means that he does not want you to have faith for nothing, or to hope in vain. You do not have to worry whether your trust in God is ultimately a waste of time, or whether God only wants you to develop faith without giving you what you want. You can have certainty that there is an end to your hope where you will experience fulfillment of what you want. He wants to give you something that you expect and not what you did not expect. Your faith is not fooled with.

The Bible says that the LORD God is a sun and shield: the LORD will give grace and glory: no good thing will he withhold from them that walk uprightly. This means that you do not have to worry if God is withholding something good from you and not allowing you to have it. He says he withholds nothing good from you if you are righteous by faith. The only righteousness is the righteousness of faith. If you believe correctly about God, nothing good will be withheld from you. So you can expect to receive fully.

God says let them shout for joy, and be glad, that favour my righteous cause: yes, let them say continually, Let the LORD be magnified, which has pleasure in the prosperity of his servant. God himself says he has pleasure in your prosperity. It means he is not against you prospering, but he enjoys and loves it when you prosper. This is God’s heart towards you. Those who think God is against the idea of financial increase are deceived. When you believe correctly about God, you can receive richly.

Jesus said the thief comes not, but for to steal, and to kill, and to destroy: I am come that they might have life, and that they might have it more abundantly. This means that Satan is the one who takes away your things and destroy what is yours. It is not God who does it. God wants to give you life more abundantly. God is your answer, not your problem. The problem comes from the devil. Believe correctly about God and know who the enemy is. Then you will be in proper alignment to manifest the victory.

Thus says the LORD, your Redeemer, the Holy One of Israel; I am the LORD thy God which teaches you to profit, which leads you by the way that you should go. God teaches you to profit, to increase in prosperity and well being. You don’t have to worry that if you follow God, he will teach you to become
poorer or to suffer more. That is a deception used by the enemy to prevent people from following God. When you follow God, he will lead you in the way that you should go that is towards your best good.

God’s word says we know that all things work together for good to them that love God, to them who are the called according to his purpose. In this way, you can have peace that although things may seem bad in the moment, or things are leading towards worse scenario, it will ultimately all work out for good. You will find yourself in a better position that you ever were before. There is a definite hope for the future and it can and will only be good. This is because God himself said so. Believe and it will be.

All that God is today, you may wonder if it will be so every single day. What you want is certainty and consistency because if something is true, it has to be true time and time again. Therefore the word of God says that Jesus Christ the same yesterday, and to day, and for ever. Jesus Christ is the Personal Aspect of God. The nature of God is revealed in the person of Jesus Christ. So God will always think thoughts of peace towards you, never withhold good from you and teach you to profit every day you live.
Finding Grace of God through Rest and Trusting

The grace of God brings us all things good in life. We receive healing, prosperity and good relationships through the grace of God. There is a theological principle called the principle of the first mention. It means that whatever is mentioned for the first time in the word of God has special significance. The first time grace was mentioned was in Genesis. Noah found Grace in the eyes of God. The name Noah in the Hebrew means Rest. Rest found grace. The key to finding the grace of God is through act of rest.

Acknowledge God as the Source and Supply. You receive all things from the Source that never runs dry. It is an inexhaustible supply. God says behold, I will do a new thing; now it shall spring forth; shall ye not know it? I will even make a way in the wilderness, and rivers in the desert. He is the Creator and he can create what you desire in places where there is nothing. He makes a way where there is no way. He has ways and means of bringing you the supply that you never even know or have thought of.

He is the same yesterday, today and forever. If He supplied your needs yesterday, He will supply your needs today. This is the assurance of faith that God is unchanging. Life is uncertain and reality is always in a state of flux. But you can be certain that God is your ever constant supply and his grace changes not. The just shall live by faith. Faith isn't a one time thing. Faith is an all time thing. Everyday you shall have to live by faith once again believing that God is your supply. It is a deliberate act of trusting.

He will supply all your need according to His Riches in Glory by Christ Jesus. He does not supply according to the limited resources of the earth. Neither does he supply according to the limited possibilities of the manifested reality. He supplies all your need according to His Infinite Substance in Divine Light by Christ Jesus who is the Alpha and Omega, the Creator from the Beginning to the End of Time and Existence. He already sees the path ahead of you and before you call he has already answered.

He is your prosperity and abundance. Christ is made unto you wisdom, righteousness, redemption and sanctification. Riches and honor are with wisdom. It is no longer about worthiness or the idea that the universe will support you only if you are worthy. Your righteousness is not by the law but it is by faith. Right now you can ask for what you want, visualize it, get excited about it and then detach from it. Detach is another word for rest. Rest is calming of the winds, being still and quiet.

All you have to do is receive and allow. Use the power of the Amen. The word Amen means so be it. When you say Amen to anything, you are saying so let it be done unto you. It is a seal of intention. It closes the circuit and lets the program run on its own. You execute the law of allowing by using the word Amen. Christ said that when you ask and believe that you receive what you want, you shall have it. The Amen focuses the probable future into one direction for the work of manifestation to best occur.

The essence of praying in the spirit or praying in tongues is giving thanks. Paul said when I pray in the spirit, I verily give thanks. Therefore thank God for what you want. The prayer of thanks in advancement is the prayer of faith. These are affirmative prayers and according to the Science of Mind, they are the true prayers that can be used to treat conditions in life to turn them into their divine state. To affirm is to make firm. When you give thanks, you are making firm your desired reality over apparent reality.

Thanking God is an expression that he has already given, and you have already received. It is a done deal. The prayer of thanks transcends time and sees God truly. The fleshly perspective is to see things in time and to be blind to that which is beyond the visible. When one looks to God, one must see Him as He is. One must see the way God sees in order to come into alignment with God’s view and will. God calls the things that be not as though they were. Act the same way God acts through faith thanks.

Take refuge in God, the Great All. It is an attitude of trust and rest. Those who follow the hermetic principles know how to take refuge in the Great All so that the principles work for them instead of against them. Much more should we who know God as Father take refuge in Him? He who dwells in the secret
place of the Most High shall abide under the shadow of the almighty. There shall no evil befall you nor any plague come near your dwelling, for he shall send his angels to protect you in all the paths you go.

This is experiencing God as a real person, one who is your helper and your friend. You are not just trusting in some cosmic entity or ultimate being that has no sense of personality to you. Christ came to reveal God as Father, and the name Father signifies a very real person indeed. You cannot be a friend to that which is impersonal. God may be cosmic mind but He is also divine personality. You walk with him through resting and trusting throughout your life journeys. The result is abundance of grace found.

Grace is a process. Grace means ease. Grace is the vortex. Grace is a flow of pure positive energy where things work out for you. Grace is what God is. All you have to do to enter into grace is to rest. Be still and know that I AM (You Are) God. When you know God and you are One, there is only One “I”. Grace is the unconditional support and supply of the universe. When you know that you are one with everyone and everything, you experience beneficial connections with all others because when you are in alignment with yourself, everyone is in alignment with you. Because you and all others are One.

You will always be supplied with what you need most for your spiritual growth and best contribution. Trust God. God is a Process. Trust the Process. Trust the Will of God. The Will of God is the intention of Source. The intention of Source is for the upward and onward of evolution. The intention of Source is for the continual expansion of itself. That is why it provides the medium that supports and promotes all psychological growth.

Grace is ease. When you move gracefully, you are moving with ease. You are moving smoothly through life. In all your ways acknowledge the Lord and He shall make your paths smooth. There is less resistance and you can move with maximum speed. Rest finds Grace. Praying in the Spirit is the rest and the refreshing and in new tongues shall you speak. With grace you can overcome resistance.

Hard and easy are energetic words. When something is hard it means there is more resistance to it. Things don’t have to be hard because with grace they can become easier. Come to Jesus if you are heavy laden and He will give you rest. Take his yolk for His yolk is easy and His burden is light. Those who receive abundance of grace and the gift of righteousness shall reign in life by Christ Jesus.
